## PROJECTS

Home Lead Sales

2024 - 2025

- Worked on building responsive web apps using Next.js and React.js with Redux Toolkit for state management. Integrated REST APIs, used TailwindCSS and ShadCN UI for clean UI components. Focused on performance, accessibility, and smooth user experience.

Balaji Temple Web

2024 - 2025

- Developed a dynamic, high-performance website using HTML, CSS, Bootstrap, and AOS for smooth fade effects and WOW.js for animations. Implemented features like contact forms, event management, donation functionality, and payment integration. Created a dynamic Admin Panel for real-time management of content, donations, and user data. Delivered a responsive, user-friendly UI across devices.

VIP Chat Club

2024 - 2025

- Developed a live-streaming and chat platform using Next.js, Redux Toolkit, WebRTC, and Socket.io, with private, public, and group chat features. Added role-based access for User, Model, Studio, Admin, and Superadmin, along with real-time video, instant messaging, a token-based tipping system, and studio management tools optimized for low-latency streaming.
